ONLINE SHOPPING APP

As a user, I want to browse through various products easily, so I can find what I need quickly and efficiently.

>*As a user, when I land on the homepage of the App, I should see clear navigation options to browse different product categories.*

>*As a user, I should be able to search for specific products using a search bar located prominently on the homepage.*

>*As a user, I expect to see relevant product suggestions based on my past purchases or browsing history.*

>*As a user, I should be able to filter products based on various criteria such as price range, brand, size, color, etc.*

>*As a user, I should be able to view detailed product information including images, descriptions, prices, available sizes, colors, and customer reviews.*

>*As a user, I should have the option to add products to my shopping cart directly from the product page.*
